Israeli and international corporations are directly involved in apartheid and occupation: in the construction of Israeli colonies and infrastructure in the occupied territories, in the settlements' economy, in building walls and checkpoints, in the supply of specific equipment used in the control and repression of civilian populations. In 2007, the **Coalition of Women for Peace** initiated **Who Profits from the Occupation**, a unique on-line resource with research on hundreds of companies directly involved in the occupation of Gaza and the West Bank, a major component of Israel's apartheid structure, exposing many of the companies for the first time.

Dalit Baum, PhD, teaches Gender and the Global Economy at the Haifa university and Beit Berl College in Israel.

Organized by the BACEIA, a coalition of: Break the Siege, the International Jewish Anti-Zionist Network (Bay Area), and Global Women's Strike. Co-sponsored by the American Friends Service Committee - Pacific Mountain Region, and Queers Undermining Israeli Terror.
